Email: _____

Statement No. 77 of the Governmental Accounting Standards Board ("Statement No. 77") concludes that government financial statement users need information about certain tax abatements provided to taxpayers. For purposes of Statement No. 77, a "tax abatement" results from an agreement between a government and an individual or entity in which the government promises to forego tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. One of the items that must be reported with respect to tax abatements is the gross dollar amount of taxes abated during the period. A Fee in Lieu of Tax (FILOT) Agreement may be construed as a "tax abatement" and therefore, a governmental entity may be required to report the foregone "tax revenues" associated with the FILOT Agreement. The SCDOR's sole purpose in requesting the information listed on this form is to collect data that may aid governmental entities in complying with the provisions of Statement No. 77. The SCDOR has not reviewed, and does not guarantee, the accuracy of the information contained in this schedule. To the extent the county has granted a taxpayer a special source revenue credit or bond, that information is not covered in this schedule, nor are any other incentives that might have been granted to the taxpayer.
