Billing and Payment

How is my BPP tax bill calculated?
The net depreciated value filed on your return is multiplied by 10.5% to calculate your assessment value.

The assessment value is sent to the county auditor’s office where the property is located, and the county millage rate is applied to determine the tax amount due.

When do I pay my BPP tax bill?
The county will send you a tax notice after September 1.

Payment is due on or before January 15 to the county treasurer’s office.
