

South Carolina Department of Revenue

Vendor Data Specifications for SC8736

Revised 8/18/2022

Data Fields

- **Font:** Print data fields in OCR-A Extended 12 pt font.
 - The SCDOR also accepts OCR-A Type 1 10 pt font, but the font **must** be embedded in the document.
 - If necessary, Courier New 12 pt font is an accepted substitute.
- **Grid:** The grid is set up at 6 horizontal lines per inch for 66 rows total and 10 vertical lines per inch for 85 columns total.
- **Name and Address:** Print in all uppercase letters with no punctuation except for a dash to separate ZIP plus 4, if applicable.
- **Numeric:** Print money amounts with a decimal and cents.
 - If zeros are pre-printed in the cents field, round amounts to whole numbers.

SC8736 Data Fields

Field Name	Horizontal Line	Vertical Column	Format (adhere to legend and include dashes, commas, decimals)
NACTP number	4 & 47	10	Replace "1350" with your NACTP # for 4 digits
NACTP number for purchased forms Vendor	5 & 48	10	9999 (not shown on grid)
FEIN	52	15	99-99999999
Tax Period Ending (MM-YY)	52	38	99-99
Payment Amount	56	65	ZZZ,ZZZ,ZZZ.00
Name	56	07	40 characters max
Attn: Name	57	07	35 characters max
Address	58	07	35 characters max
City (20), State (2), ZIP (10)	59	07	See grid, leave 2 spaces between city/state and 2 spaces between state/ZIP(99999-9999)

Legend: 9= Numeric, Z= Zero Suppressed Numeric, X= Alphanumeric

Scanline for SC8736

Revised 8/22/2022

- **Font:** Print form ID and scanline in OCR-A Extended 12 pt font.
 - The SCDOR also accepts OCR-A Type 1 10 pt font, but the font **must** be embedded in the document.
 - If necessary, Courier New 12 pt font is an accepted substitute.
- **Grid:** The grid is set up at 6 horizontal lines per inch for 66 rows total and 10 vertical lines per inch for 85 columns total.
- **Scanline Placement:** The scanline data begins in horizontal row 63, vertical column 20 and ends in vertical column 70.
- **Form ID:** The 8-digit number to the left of the scanline data is a form ID. The form ID begins at horizontal row 63, vertical column 10 and ends at vertical column 17.
- **Check Digit Calculation:** See the SCDOR Check Digit Calculation page in the Software Developers Guide.

Example Scanline: The form ID and scanline data in this example may not reflect current year information, but is present to show placement and format.
