## GENERAL INFORMATION

**Eligible Purchaser Benefits**

An approved eligible purchaser may make deferred Motor Fuel User Fee payments and other applicable fees to the supplier. They may also claim a tare allowance on motor fuel subject to the user fee acquired from a supplier.

**Eligible Purchaser Requirements**

An approved eligible purchaser must make timely Motor Fuel User Fee payments and other applicable fees to the supplier by electronic funds transfer. Contact each supplier for detailed information on payment dates.

**Eligible Purchaser Approval**

When the SCDOR receives your request, we will verify the bond or financial statement provided. If your request is approved, we will issue a letter of approval. Forward a copy of your approval letter to each supplier.

**Eligible Purchaser Revocation**

An individual supplier may revoke your eligible purchaser status if you fail to make timely payments. The supplier must notify the SCDOR within ten days of the date the payment was due. The SCDOR will assess the user fee and any other applicable fees due and revoke your eligible purchaser status for all suppliers. This revocation is for the eligible purchaser status only, not for the fuel vendor license.
