INTRODUCTION

Effective July 11, 2012, the South Carolina Department of Revenue has implemented a web-based system to provide the option to submit returns and remit fees electronically at no charge.

Please note that filing via the web requires electronic payment of the user fees required to be remitted. Options will be available for payment by ACH credit and ACH debit only. No paper checks can be accepted for payment of liabilities reported on web filed vouchers. The payment method is required to be selected at the time of registration.

The method of issuing refunds shown due on a return has not changed. All refunds will be issued manually once the electronic return is received and verified.

Effective July 1, 2012, specific product codes for gasohol and biodiesel will be required. They are as follows:

Gasohol- E01-E99 replaces “roll-up” product code 124 to reflect the percentage of fuel grade ethanol blended with gasoline. Pure, unblended fuel grade ethanol should be reported as E00, replacing product code 123.

Biodiesel- B01-B99 replaces “roll-up” product codes 284 and 170 to reflect the percentage of biodiesel blended with undyed diesel fuel. Pure, unblended biodiesel should be reported as B00.

Biodiesel- D01-D99 replaces “roll-up” product codes 284 and 171 to reflect the percentage of biodiesel blended with dyed diesel fuel. Pure unblended, dyed biodiesel should be reported as D00.
