INTRODUCTION

Effective July 11, 2012, the South Carolina Department of Revenue has implemented a web-based system to provide the option to submit returns and remit fees electronically at no charge.

Please note that filing via the web requires electronic payment of the user fees required to be remitted. Options will be available for payment by ACH credit and ACH debit only. No paper checks can be accepted for payment of liabilities reported on web filed vouchers. The payment method is required to be selected at the time of registration.

The method of issuing refunds shown due on a return has not changed. All refunds will be issued manually once the electronic return is received and verified.

Effective July 1, 2012, specific product codes for gasohol and biodiesel will be required. They are as follows:

*Gasohol- E01-E99 replaces “roll-up” product code 124 to reflect the percentage of fuel grade ethanol blended with gasoline. Pure, unblended fuel grade ethanol should be reported as E00, replacing product code 123.*

*Biodiesel- B01-B99 replaces “roll-up” product codes 284 and 170 to reflect the percentage of biodiesel blended with undyed diesel fuel. Pure, unblended biodiesel should be reported as B00.*

*Biodiesel- D01-D99 replaces “roll-up” product codes 284 and 171 to reflect the percentage of biodiesel blended with dyed diesel fuel. Pure unblended, dyed biodiesel should be reported as D00.*

CREATING VOUCHER/TAX SESSION

1. From the Tax Filing tab, select Tax Sessions from the dropdown menu.

2. Click **Add New Record**.

3. Select the appropriate voucher from the Taxpayer Type dropdown list.

4. Enter the Begin Period Date.
   a. **Import Payment Vouchers**: Organize the import transactions by manifest/invoice date. Use the manifest/invoice date as the “Begin Period Covered.” Only one session per day can be created. You will need to have all gallons imported entered for that manifest/invoice date before you close the session.
   b. **Diversion Payment Vouchers**: Organize the diversion transactions by bill of lading date. Use the bill of lading date as the “Begin Period Covered.” Only one session per day can be created. You will need to have all diverted bills of lading entered for that bill of lading date before you close the session.

5. Click outside the entry field and the End Period Date will be populated. Click the **Create Session** button.

6. Close out the Record Inserted menu.
7. Right click on the row for the voucher session you just added and select Schedule Transactions.

8. Select schedule type from dropdown list to add. Next, click **Add New Record**.

9. Enter all the voucher information requested on the entry screen for all import transactions with the same manifest/invoice date or all diversion transactions with the same bill of lading date.

10. Click **Insert** to accept entry. Some data will remain from the previous transaction. Once all information is inserted for the vouchers, click on the red X to close the window.
SESSION DETAILS

1. From the Tax Filing tab, select Tax Sessions from the dropdown menu.
